Why Silvertel?	
Smaller board space	SIL & SMT modules are strategically designed to be the same height or smaller than an RJ45 connector. Max space required is less than 1.0 in ² . Ag9900 series is even smaller.
Safety	Modules are fully tested and compliant to IEEE 802.3af, IEEE 802.3at or IEEE 802.3bt
Quicker time to market	The modules are optimized PoE circuits. No complex reference designs with many external components
Low cost solution	Modules are a lower cost solution compared to IC solutions
Compliance	Tested to meet international EMC standards
